

REMARKS

Support for new claims 396-397 is found throughout the specification including page 3, line 13 and in Table 4.

Support for claims new 398-399 is found throughout the specification including pages 2, 5, 18, 22, 49, 69, 72, 78-86 and in Table 1.

Support for claims new 400-401 is found throughout the specification including pages 2, 31 and 87 of the specification and in Table 2.

Support for claims new 402-405 is found, inter alia, in specification and in claims 384-387.

This amendment adding claims 396-405 is needed to claim more specifically the invention claimed in allowed claims 382-387.

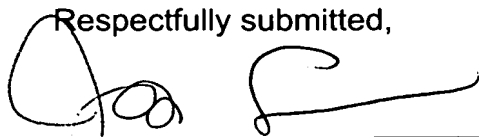

The new claims do not require any additional search or examination because the subject matter of claims 396-405 is included in allowed claims. The compounds included in claims 396-401 are claimed in claim 364.

New claim	Allowed claim
Claim 396	382
Claim 397	383
Claim 398	384
Claim 399	385
Claim 400	386
Claim 401	387
Claim 402	384
Claim 403	385
Claim 404	386
Claim 405	387

The claims are patentable because claims 382-387 are patentable.

The claims were not earlier presented because it only became apparent that these new claims should be added to the application when the Examiner called the undersigned to discuss allowance of the application.

Respectfully submitted,

A handwritten signature in dark ink, appearing to be 'Janet I. Cord', written over a horizontal line.
